Document Description

This manual shows how to release Belk POs in Uber Freight's TMS using the Uber Freight 'Order Management System' (OMS) as well as navigating Uber Freight's External Shipment Monitoring System.

Vendor Scope for Uber Freight TMS

- o Parcel, LTL, TL, Intermodal
- o Inbound from Vendors to Belk DCs
- o Collect Freight

Uber Freight TMS Modules

Order Management System (OMS)

- o Vendors will release "collect" PO via Uber Freight Order Management System
- o View Belk PO Ship Window
- o Update Packaging Unit (Carton Count)

External Shipment Monitoring

- o Vendor will have visibility to load status
- o Vendor can download bill of lading
- o Vendors will have access to update the following fields in External Shipment monitoring Portal.
 - o Unit quantity, Handling Unit, Weight, Cubic Feet

**** Vendor cannot make any changes to 'Earliest Time', 'Latest Time' or 'Pick up Address' after PO release. Vendor should contact Belk Logistics@uberfreight.com if adjustments are needed****

Accessing Uber Freight TMS

- You will release orders through the Uber Freight website using your web browser.
- Proceed to the Uber Freight website – www.uberfreight.com.
- Click the “Login” button at the top right corner of the screen. A login screen will open.
- Select “Transplace Logins” and then “Transplace TMS.”
- Enter your provided username and password.

**** If you do not have a Uber Freight username and password please contact belk_logistics@uberfreight.com and provide the following information****

Once logged into Uber Freight TMS, the menu screen will appear. You will have access to the applications listed in the 'Actions' section on the left side of the menu.

- Click on 'Order Management'

Searching for a PO

You can search for PO in [three](#) ways in the 'PO Search' tab.

Option 1

1. Enter your PO number in the 'PO' text field located at the top right corner of the screen in the 'General' section. Please note: You may search for multiple POs by separating them with a comma (example: 5355993, 5585112).
2. Clear out all dates
3. Click the "Search" button at the bottom right corner of the screen.
4. Your PO will populate in a new 'PO Search Results' tab.

The screenshot displays the 'Uber Freight' 'PO Search' interface. At the top, it shows 'Module: ORDER MANAGEMENT' and 'BELK / BELK'. The main search area is divided into several sections:

- Search Templates:** A list box showing 'No templates available...'.
- General:** Contains fields for 'PO' (5907967), 'PO Status' (dropdown), 'Product #' (text), and 'Payment Terms' (dropdown).
- Origin:** Contains 'Location ID(s)' and 'Vendor ID' text fields with search icons and a 'Clear' button.
- Destination:** Contains a 'Location ID(s)' text field with a search icon and a 'Clear' button.
- Dates:** Contains four rows for 'Pickup', 'Delivery', 'Created', and 'Requested Delivery', each with date pickers and a 'Clear' button.

At the bottom right, there are 'Search' and 'Reset' buttons. The 'Search' button is highlighted in yellow.

Option 2

1. Enter your company name or vendor ID (supplier site number) in the 'Vendor ID text field' located at the center left of the screen in the 'Origin' section. Please ensure you are entering all vendor ID's associated with your business. [If you are unsure of your vendor ID number\(s\) please reach out to your buyer for confirmation.](#)
2. Clear out all dates
3. Click the "Search" button at the bottom right corner of the screen.
4. All POs existing for your company/ID will populate in a new 'PO Search Results' tab

Note: If you save the Vendor ID(s) entered as a “template” by entering a template title and hitting “Save”— you will be able to click the template title to perform future search with the same number of days in the range.

The screenshot displays the Uber Freight ORDER MANAGEMENT interface. The main header shows 'Uber Freight' and 'Module: ORDER MANAGEMENT'. The user is logged in as 'BELK / BELK'. The interface is divided into several sections:

- Search Templates:** A list area currently showing 'No templates available...'. Below it is a search input field containing 'VENDOR ID SEARCH' and buttons for 'Load', 'Save', and 'Delete'.
- General:** Fields for PO, PO Status (dropdown), Product #, and Payment Terms (dropdown).
- Origin:** Fields for Location ID(s) and Vendor ID (containing '12345678'), with a 'Clear' button.
- Destination:** Field for Location ID(s) with a 'Clear' button.
- Dates:** Fields for Pickup, Delivery, Created, and Requested Delivery, each with a date picker and a 'Clear' button.

At the bottom right, there are 'Search' and 'Reset' buttons.

Option 3

1. Enter a pickup date range in the date section of the screen. You may type in the text field next to pick-up or click the calendar icon to select your date. Note: If you save the date range as a “template” by entering a template title, you will be able to click the template title to perform future search with the same number of days in the range. The dates will roll over each day to reflect (i.e., If a search template is added on 1/13 with Pick-up range 01/13/20-1/27/20, on 1/14 the dates auto-populate in your search template will show 1/14/20-1/28/20)
2. Click the “Search” button at the bottom right corner of the screen.
3. All POs existing for **all** associated vendor ID(s) (supplier site number(s)) will populate in a new ‘PO Search Results’ tab

Releasing a PO to TMS

Once you have successfully searched for your POs, you can release your order from the 'PO Search Results' tab. Vendors are responsible for 'releasing' orders from OMS by **noon local time 3 business days (72 hours) prior to the desired pickup date**. Once your order has been released it will then be planned by our Uber Freight operations team.

Please review the below prior to routing:

- o Belk's routing parameters:

Parcel-

18 cartons MAX

160lbs MAX

Standard LTL-

0-800 CF

0-9PLTS

Consolidator LTL-

0-1700CF

0-16PLTS

19,999LBS MAX

Volume LTL-

800-1500 CF

10-16 PLTS

TL-

1500-3500 CF

Floor loaded

****PLEASE NOTE YOU SHOULD BE STACKED 8' HIGH****

****Ready date should not be in the past and should not exceed cancel date.****

Chargebacks

You WILL receive chargebacks if:

- Route late
- Ship an LTL floor loaded.
- Ship a TL palletized.
- Ship with the wrong carrier
- Enter inaccurate shipment details.

1. Click the 'Green Plus Sign Icon' located in the first column titled 'PO'. This action will put your PO in a 'Pending' status.
2. Click the word "Pending" that has now populated in the 'Releases' column

PO Search		PO Search Results	Pending Releases (1)	Release Search	Release File Upload

 Special Instructions:

Pick up Location:

Update Pick up Location: Confirm your shipping address is present and correct. If updates are needed, enter your pickup location by typing your city name in the 'Location ID/Name' text field. You will see a box populate with your location ID. Click the 'Location ID' number to select your location. Please note: if your location does not populate, please contact belk_logistics@uberfreight.com to resolve.

***If you are missing a required field an error message will appear indicating the field needing data. Example image below:**

The screenshot displays a software interface for managing a pending release for PO 3803168-737. At the top, it shows the status 'Pending' and the equipment '53 FT DRYVAN'. A comment field contains 'OPERATIONAL'. Below this, a table titled 'Stops' lists pickup and dropoff locations. The pickup location is '303' with an error message: 'The address, city, state, country & zip code combination is invalid. Missing earliest pickup date/time: 300. Missing latest pickup date/time: 300'. The dropoff location is '737 BELK 737 DISTRIBUTION CENTER' at '120 BELK CT BLYTHEWOOD, SC 29016 USA'. At the bottom, a table titled 'Line Items (1)' shows a single line item with errors: 'Missing quantity', 'Missing weight', 'Missing cube', and 'Missing packaging unit'. The line item details are: PO Line # 737, Product # Retail Goods, Product Description ALL ITEMS VARIOUS, Available -4.00 UN, Quantity UN, Weight LBS, Cube CF, and Handling Unit PLT. At the bottom right, there are buttons for 'Update', 'Release', and 'Cancel'.

Errors/Warnings	Type	Location ID/Name	Location Address	Earliest Time	Latest Time	Loading/Unloading Description	Type
The address, city, state, country & zip code combination is invalid. Missing earliest pickup date/time: 300. Missing latest pickup date/time: 300	Pickup	303

- Once your order has been released you will receive a release confirmation number (EX PM-REL-14178423). If you have any updates to your order after releasing.

Please note that the available quantity does NOT matter, you can route as normal.

NOTE: YOUR BOL WILL BE AVAILABLE AT CARRIER TENDER ACCEPTANCE. YOU CAN ACCESS YOUR BOL THROUGH UBERFREIGHT EXTERNAL SHIPMENT MONITORING PORTAL

Releasing multiple PO to TMS

You will release your order from the 'PO Search Results' tab. Vendors are responsible for 'releasing' orders from OMS by **noon local time 3 business days prior to the desired pickup date**. Once your order has been released it will then be planned by our Uber Freight operations team.

Please review the below prior to routing:

- A single release should not exceed one truckload (3500 CF max. or 42,000 LBS max.)
- Ready date should not exceed cancel date. If multiple POs are being released, vendor will need to ensure the shipping windows overlap AND are inclusive of selected ready date.

1. Search your PO in OMS (Reference section: "Searching for a PO")

The screenshot displays the 'Uber Freight' OMS interface for 'Module: ORDER MANAGEMENT'. The 'PO Search' tab is active, showing a search form with the following sections:

- Search Templates:** A list box containing 'No templates available'.
- General:** Fields for PO (5907967), PO Status (dropdown), Product #, and Payment Terms (dropdown).
- Origin:** Fields for Location ID(s) and Vendor ID, each with a search icon and a 'Clear' button.
- Destination:** A field for Location ID(s) with a search icon and a 'Clear' button.
- Dates:** Fields for Pickup, Delivery, Created, and Requested Delivery, each with a date picker and a 'Clear' button.

At the bottom right, there is a yellow 'Search' button and a 'Reset' button.

2. Select all PO's that you are wanting combined (please group by DC), then add to pending releases

[*Note: Purchase orders going to the same DC should be combined. DO NOT release PO for multiple DC's together. Additionally, "collect" orders for ECOMM DC 888, should be combined with freight to DC 737.*](#)

Module: ORDER MANAGEMENT

Rows 1-4 of 4

- Fill out all required fields with freight specific information.

Location

Enter your pickup location by typing your city name in the ‘Location ID/Name’ text field. You will see a box populate with your location ID. Click the ‘Location ID’ number to select your location. Please note: if your location does not populate, please contact belk_logistics@uberfreight.com to resolve. Confirm your address is correct.

If there is not an “Origin” or “Origin Address” showing for your PO OR your address is showing incorrectly: You will need to update your location.

- First you will need to select all POs, then select “Mass Edit Stops”

Module: ORDER MANAGEMENT

PO Search PO Search Results **Pending Releases (3)** Release Search Release File Upload

<input checked="" type="checkbox"/>	PO	Product(s)	Available Quantity	Release Quantity	Weight	Cube	Handling Unit	Packaging Unit
<input checked="" type="checkbox"/>	3803168-737	Retail Goods	-4.00 UN					
<input checked="" type="checkbox"/>	5930080-737	Retail Goods	193.00 UN	193.00 UN				
<input checked="" type="checkbox"/>	5930946-737	Retail Goods	839.00 UN	839.00 UN				

Multiple PO Edit & Release Mass Edit Stops Release Remove From Pending Releases Mass Edit References

- Next, enter your location by selecting the magnifying glass and searching by City and State. Alternatively, if you have the location ID you may search by this number. You will then need to select “Update”

Edit stops for 3 pending release(s)

Type	Location ID/Name	Location Address	Earliest Time	Latest Time	Loading/Unloading Description Type
Pickup	<input type="text"/>		<input type="text"/>	<input type="text"/>	
Dropoff	<input type="text"/>				

Update Cancel

- After your location has been corrected per steps 1 and 2, your “Pending Releases” screen should now be showing the updated address under “Origin” and “Origin Address”
- Once this is complete you may release your PO’s as usual.

Date

Confirm your ‘Earliest and Latest Date’ is the correct pickup date. To adjust click in the text field and type the correct date. The “Earliest Date” = Vendor’s ready date and the “Latest Date” = one day prior to Belk “Cancel Date”.

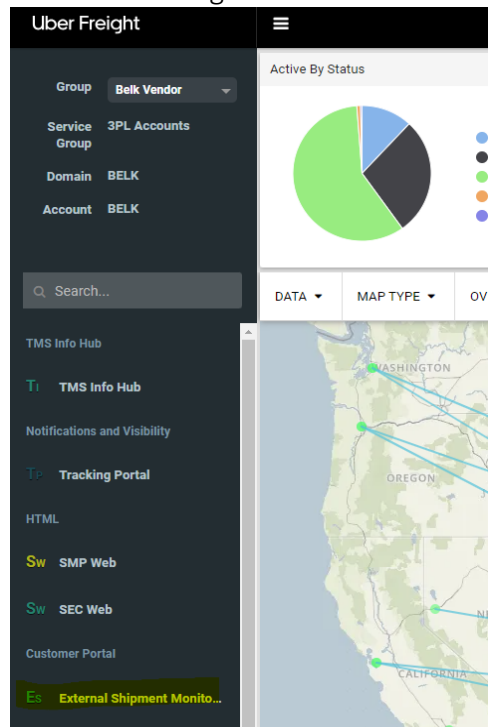

- Ready date should not exceed cancel date. If multiple POs are being released, vendor will need to select the same ready date for both PO’s and ensure the shipping windows overlap.
- Be sure to scroll all the way to the right, to ensure all fields are entered. Enter Quantity (units), Weight, Cube, Packing Unit located in the ‘Line Item’ section of the screen.
- Please note all LTL shipments for Belk must be palletized unless instructed otherwise: if your pallet count is unavailable at time of entry.
- Once complete, select “Release.”
- After selecting “Release,” you should receive a release number (confirmation number; Format: PM-REL-14174679)

External Shipment Monitoring

The External Shipment Monitoring module allows users to monitor shipments, view shipment status, update PO totals, and access your BOL.

Once logged into Uber Freight TMS, the menu screen will appear. You will have access to the applications listed in the 'Actions' section on the left side of the menu.

1. Click on 'External Shipment Monitoring'

Key Terms

- [Primary Reference](#) – PO with DC code at the end. (ex. PO# 390658 going to DC 737/Blythewood = 390658-737)
- [BOL Number](#) – This will be the Uber Freight ME/load number unless a different BOL was entered upon release.
- [OMS Release Number](#) – Reference number provided at time of PO release (Ex PM-REL-14174679)
- [Belk PO Number](#) – Purchase Order number provided by Belk.

Load Status:

Unplanned

- [Pending](#) – Load number has been created and pending coverage.
- [Assigned](#) – Load number has been created and Uber Freight capacity team working on coverage.

- [Tendered](#) - Load number has been created and Uber Freight capacity team working on coverage.
- [Tender Reject](#) - Load number has been created and Uber Freight capacity team working on coverage

Planned

- [Tender Accept](#) – Load number has been created and accepted by carrier for pickup. Your BOL is available for download!

Searching for a shipment

You can search for shipments multiple ways using the 'Search Criteria' tab.

Option 1

- Enter your ME or Reference number in the related text fields located at the top center of the screen in the 'Criteria' section. (For multiple references numbers you may separate each with a comma)
- Click the "Search" button at the bottom right corner of the screen.
- Your shipment(s) will populate in the 'Results' tab.

Accessing Uber Freight BOL

You will be able to access your BOL from the search results tab in External Shipment Monitoring.
 Note: When you edit the pallet count for LTL shipments, the update will reflect immediately once a new BOL is opened.

*Note: Any changes to the BOL (PO number, cartons count, etc.) should be made in TMS prior to shipping. If BOL is inaccurate, charge backs may apply.

Steps:

1. Click the paper icon in the first column (UF Load Number)
2. Click within the new web page to Print or Download your BOL

Editing Orders AFTER release

External Shipment Monitoring

Certain parameters can be updated after your PO has been released. These parameters include Pallet count (Handling Unit), Weight, and Cubic foot (Volume). Orders will need to be updated via the “External Shipment Monitoring” module found on the Customer Portal Page

1. Start by entering either your UF load number OR you can search by the PO number you are looking for.
2. Hit “Search”

The screenshot shows the Uber Freight SHIPMENT MONITORING interface. The top bar displays the Uber Freight logo and the module name. Below the header, there are search filters and results (459). The search filters are divided into Search Templates, Criteria, Report Type, and Misc Search Criteria.

Order Type: Select

Business Unit: Select

3. Once your search results come up, your UF load number should be showing in Red as shown below. (If your load is showing in the color black, please contact Belk_Logistics@uberfreight.com) You will then need to click on the load number.

The screenshot shows the Uber Freight SHIPMENT MONITORING interface displaying search results. The top bar displays the Uber Freight logo and the module name. Below the header, there are search filters and results (459). The search filters are divided into Search Filters, Results (459), and Rows: 1-25.

Search Filters Results (459)

Rows: 1-25

TP Load Number	Mode	Load Status	SCAC	Freight Type	Total Distance	Hot	HazMat	Primary Reference	Origin ID	Origin Location	Pickup Appt	Pickup Arrival
864302702	LTL	Tender Accept	TXLW		632 Miles			3800462-744	100194720004	SAVANNAH, GA	08/14/2023 08:00

4. Your load will open into another tab. “Line Items (1) for Primary Reference 3800462-744”. Select the piece of paper icon under “Actions”.

The screenshot shows the Uber Freight SHIPMENT MONITORING interface. At the top, it displays 'Module: SHIPMENT MONITORING' and 'User: ROSALINDA LOPEZ'. Below this, there are search filters and a 'Load 864302702 Details' button. The main area shows a table of 'Stops (2)' with columns for #, Type, Location ID / Name, Appointment, Quantity, Weight, Cube, and Handling Unit. Below the stops, there are 'Freights (1) for Stop 1' and 'Line Items (1) for Primary Reference 3800462-744'. A 'Modify Line Item' dialog box is open, allowing for changes to the selected line item. The dialog includes fields for Reference(s), Product Number (Retail Goods), Product Description (ALL ITEMS VARIOUS), Quantity (141.00 UN), Weight (88.00 LBS), Cube (55.00 CF), and Handling Unit (1.00 PLT). The dialog has 'OK' and 'Cancel' buttons.

5. A window will pop up allowing modifications to be made. Once parameters have been revised, select “Ok” then “Save” in the top right-hand corner.

6. You will receive the below confirmation once changes have been saved

The screenshot shows the Uber Freight SHIPMENT MONITORING interface. At the top, it displays 'Module: SHIPMENT MONITORING'. Below this, there are search filters and a 'Load 864302702 Details' button. A yellow notification box with a checkmark icon displays the message 'Saved changes to load'. Below the notification, the load details are shown: 'Transplace Load #: 864302702 Status: Tender Accept', 'SCAC: TXLW', and 'Account: BELK'.

7. If you are updating multiple PO's, you will repeat this process.

****If your new updates cause's the parameters to exceed a mode type. Please reach out to belk_logistics@uberfreight.com to ensure we get the correct carrier to pick up (ex. Current load is LTL and new updates causes to exceed to a TL, Operations needs to know to change the mode type.)****

Order Management System

Vendors are now able to update their carton count after the PO has been released. Orders will need to be updated via the “Order Management” module found on the Customer Portal Page.

1. Search your PO in Order Management
2. Under the PO Search Results tab – select your PM Release number by clicking the magnifying glass beside the release number

Uber Freight
Module: ORDER MANAGEMENT

Frequently Asked Questions

Q: I am a new user to Uber Freight, how would I go about requesting a login?

A: Please reach out to us at Belk_Logistics@uberfreight.com advising the below information so we can get you setup:

- First/last names
- Email
- Phone #
- Vendor Id(s)/PO(s)
- Shipping Address(es)
- Shipping Hours
- Special Instructions

Q: I have a Uber Freight username, how would I request access to the Belk account through Uber freight?

A: Please reach out to us at Belk_Logistics@uberfreight.com advising the below information:

- Uber Freight Username
- Vendor Id(s)/PO(s)
- Shipping Address(es)
- Shipping Hours
- Special Instructions
- Location Contact

Q: I have a PO that needs to be combined to an existing shipment, what do I do?

A: Any PO's needed to be added to a specific shipment reach out to the Operations team via email belk_logistics@uberfreight.com

Q: I have a "HOT" PO, should I mark this in Uber Freight OMS?

A: No. Belk will mark all "hot" PO's. Please reach out to us at Belk_Logistics@uberfreight.com if you are routing a hot PO.

Q: Which fields can I, as a vendor, update and where?

A: Vendors can update Unit Quantity, Handling Unit, Weight, and Cubic Feet via "External Shipment Monitoring". As well as Packaging Unit (Carton Count) via "Order Management System."

Q: I cannot find a section to update my carton count (Packaging Unit).

A: Packaging Unit can be updated via Order Management System.

Q: What do I do if my PO is not showing in OMS?

A: Contact Belk_Logistics@uberfreight.com ASAP providing the below information:

- Uber Freight Username
- Vendor Id(s)/PO(s)
- Shipping Address(es)
- Shipping Hours
- Special Instructions
- Location Contact

Q: What should I do if my PO exceeds a single truckload?

A: Belk just requests that you consolidate your PO's as much as possible however if you have a PO that exceeds a single truckload (3500 CF max., 42,000 LBS max.) – Vendors will need to release this PO multiple times—one release for each truckload.

Q: When can I download my bill of lading?

A: You should receive an email notification once your shipment has been accepted. Once your load is showing in “Tender Accept” status in External Shipment Monitoring, you are set to download your BOL. Please do not download your BOL prior to “Accepted” status.

Q: I see my PO in “External Shipment Monitoring” but there is no TP Load Number?

A: This mean that we have received your release and your PO is pending routing. Please check back for carrier assignment.

Q: Where can I reference carrier assignment?

A: When viewing your shipment via “External Shipment Monitoring” the assigned carrier will be noted under “SCAC”. Contact information is available by hovering over the orange comment symbol.

TP Load Number	Mode	Load Status	SCAC	Freight
865684373	TL	In-Transit	USXI	
865684375	Intermodal	In-Transit	HJBI	
865804659	TL	Tender Accept	NWKO	
865804681	TL	Tender Accept	NWKO	

Q: How do I view my ship window/cancel date in OMS?

A1: You may view your ship window under “PO Search Results”

1. Search the PO in OMS
2. Under “PO Search Results” the ship window can be viewed in column labeled “Requested Pickup Time” on the right-hand side of the screen.

Destination	Pickup Time	Delivery Time	Requested Pickup Time	Re
737 BELK 737 DISTRIBUTION CENTER			08/28/2023 00:00 09/11/2023 00:00

Q: I have overflow cartons/POs from a previous shipment. What should I do?

A: Please contact Belk_Logistics@uberfreight.com with the confirmed numbers of what was shipped (PO, if partial or full PO, weight, carton count, pallet count-if applicable)
